## Product Catalog

(-)-Sparteine

Mandelic acid derivatives

Amino acids

*N*-benzoyl amino acids

*N*-3,5-dinitrobenzoyl amino acids

Excellent quality is our standard.

# Company Profile

Galochrom is established European manufacturer of cutting-edge HPLC columns, with headquarters in the Czech Republic. We are an international team of experts, with 70+ years of experience in the field.

Additionally, we manufacture high-purity specialty chemicals. Our priority is to empower your research by making these crucial analytes available and affordable.

## Why choose us?

Do you want to minimise experimental failures and easily achieve your research milestones?  
Do you need a reliable specialty chemicals that are often unavailable?

Choose a partner you can trust with your chemical needs.

### Premium Quality

Each product undergoes strict quality control to guarantee the highest standards of quality.

### Competitive Pricing

Our prices ensure that you receive the best value for your investment.

### Special Products

We make crucial chemicals available for every lab. In some cases we are one of a few global manufacturers.

### Expert Team

Our advanced manufacturing is supported by many organic synthesis professionals.

### Flexibility

If you can't find desired chemical or have special requirements, we are here to meet your expectations.

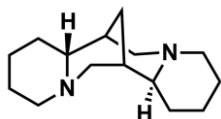

### Customer-Centric

We deeply care about people we serve. Galochrom is known for open communication and prompt customer service.

**Elevate your analytical capabilities to the next level!**
